EDUCATION

HilCoE School of Computer Science and Technology

- Bachelor of Science, Computer Science
- Expected Graduation: February/2024

EXPERIENCE

Bilos -Addis Ababa, Ethiopia

- Collaborated with a team of developers to design and develop a website for Bilos Pastry using HTML, Tailwind CSS, and React.
- Assisted in developing and maintaining user-friendly websites.
- Gathered, defined and translated client requirements into product stories and actionable tasks.
- Implemented responsive web design principles to ensure optimal user experience across various devices and screen sizes.
- Developed reusable and modular code components, enhancing code maintainability and scalability
- Currently awaiting response from Bilos on a recent website development project.

PROJECT

Akiya, Full-Stack Web Site | HTML, CSS, C#(ASP.NET Framework) |

- Collaborated with a team to develop the Akiya website, a platform for buying and selling houses.
- Utilized the MVC architectural pattern for enhanced code organization and maintainability.
- Utilized HTML and CSS to create the front end interface, ensuring a visually appealing and user-friendly design.
- Worked closely with the back end developers who used ASP.NET Framework to integrate the front end

SKILLS

- **Languages:** Java, C++, HTML, CSS(Tailwinds), JavaScript, React JS, Mongo DB, Version Control (Git), Problem-Solving
- **Tools:** Visual Studio, Visual Studio Code, GitHub.

Summary

- Highly confident and skilled web developer with a strong programming background, specializing in web development. Proficient in various programming languages and frameworks, including HTML, CSS, JavaScript, and React. Demonstrated expertise in delivering successful projects and creating innovative web solutions. A proven track record of developing and implementing diverse projects, showcasing adaptability, problem-solving skills, and a commitment to delivering high-quality work.
